To our valued customers and the communities we serve,

As a small town community bank, we take very seriously the health and well-being of our employees and customers.

We are closely monitoring the CDC and MN Dept. of Health to keep ourselves up to date with the changes and challenges our country is facing and the impacts of the COVID-19, Coronavirus.

We are actively taking as many precautions and preparations as possible by sanitizing high traffic areas throughout the day. We have also eliminated bank related travel and tested our work from home connectivity should it need to be utilized.

We want to ensure that all of our customers know of the many banking options we offer beyond visiting the bank to limit person-to-person contact. Many of these services provide options and flexible ways to connect with us.
